

**HNDIT 2312 Software Engineering**  
**2<sup>nd</sup> Year**  
**Lab Sheet-04**

**Objectives:** Student will be able to identify functional, nonfunctional and constraints in the requirement engineering process.

**Group Activity**

Mystore.lk is a famous local e-commerce web site for selling products to online customers. Student can visit the web site and try to identify following requirements.

05 functional requirements (minimum) with input, process and outputs

03 nonfunctional requirements

01 constraint

Each group should explain to the classroom.
